

## **We Have Enough**

by Beverly Feldt and Angela Salvaggione

In those long nights when we can't sleep and our  
worries whisper in our ear,  
we need a voice that will remind us that we are always  
greater than our fear.

**(Chorus)**

**We have enough time  
We have enough courage  
We have enough wisdom  
We have enough love.**

**We have enough time  
We have enough courage  
We have enough wisdom  
We have enough love.**

In those hard days when the light dims and it seems like  
all we do will fail,  
we need a sign that can sustain us and help us see that  
hope is never frail.

**(Chorus)**

In our torn lives there are moments when we feel a  
certainty within.  
Then we must sing to tell each other we're not alone,  
nor have we ever been.

**(Chorus)**
